

# Voltage detector DTI

## Description :

The DTI voltage detector is a direct contact detector. It covers all standard voltage range from 1KV to 52kV. Factory adjustable thresholds are learned on real voltage. In a positive detection, DTI gives both audible and visual alarms.

Interface

## Specifications :

- Automatic switch ON or with button
- Integrated self-test.
- Failure indication.
- Unversal spline for hostick attachment.
- 9V battery operated
- Low consumption.
- Both powerfull audible and visual alarms.
- Multi devices (3 independent devices in 1)
- Low battery indication.
- Automatic standby.
- Can be used on 50Hz and 60Hz systems.
- Water resistant/gasketed housing.
- Rugged polycarbonate housing for heavy field use.
