

Voltage indicator VI

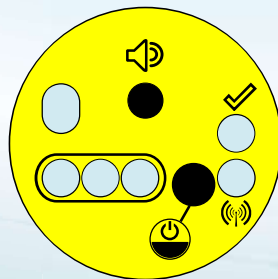

Description :

The voltage indicator VI is a ca direct contact detector. It covers all standard voltage range from 1KV to 52kV. In a presence of voltage, the VI gives an indication of the voltage level on the equipment.

Specifications :

- Automatic switch ON or with button
- Integrated self-test.
- Failure indication.
- Unversal spline for hostick attachement.
- 9V battery operated
- Low consumption.
- Both powerfull audible and visual alarms.
- Low battery indication.
- Automatic standby.
- Can be used on 50Hz and 60Hz systems.
- Water resistant/gasketed housing.
- Rugged polycarbonate housing for heavy field use.
- Requires operator unit N-Box for the indication of the voltage level.
